LAND USE MATTERS AND REZONING REQUESTS:

Planned Development/Rezoning Requests

(1) **RZ-18-09 -- 2800 Dock Road & 0 Thomas Sumter Hwy. (County) -- First Reading --** Request To Rezone Two Parcels, Totaling 2.45 Acres, From General Commercial (GC) And Agricultural Conservation (AC) To Agricultural Conservation (AC). The Parcels Are Located At 2800 Dock Road And 0 Thomas Sumter Highway, On The West Side Of Thomas Sumter Highway. The Properties Are Represented By Tax Map #S188-00-01-015 And 188-00-01-107.

Mr. McGregor, the Planning Director stated that this request is to rezone two parcels with a total of 2.45 acres of land from General Commercial (GC) and Agricultural Conservation to Agricultural Conservation (AC). The subject properties (in red) are located on the west side of Thomas Sumter Highway (US 521) near West Brewington Road in Sumter County; 2800 Dock Rd. and 0 Thomas Sumter Highway are a part of the Dock Road subdivision, a subdivision created as the result of settling family land to the heirs of the original owners. The applicant wishes to rezone the parcels in order to accommodate manufactured homes, which based on the current zoning are impermissible on both parcels. The residential development along Dock Road is comprised mainly of manufactured homes.

The Planning Director further stated that the subject properties are two of the remaining undeveloped lots within the subdivision. These lots were created prior to the 1999 zoning ordinance and highway corridor strip commercial zoning. The photographs below show the properties as they are today.

![Above Left: The Northern Parcel.](image1)

![Above Right: Southern Parcel](image2)

The northern parcel is bisected by an extension of the private dirt road owned by the family of the applicant. Although one of the parcels abuts Thomas Sumter Hwy., legal access is from Dock Road.
After all discussion on this matter, the Chairman called for a motion on first reading.

**ACTION:** MOTION was made by Vice Chairman Byrd, seconded by Councilman Edens, and unanimously carried by Council to grant first reading to this rezoning request.

(2) **OA-18-06 -- Schools in Commercial Zoning Districts (County) -- 18-901 -- First Reading --** Request To Amend Article 3, Sections 3.F.3, 3.G.3, 3.H.3, And 3.I.3, And Exhibit 5 To Add Elementary And Secondary Schools With SIC Code 821 To The Professional Office (PO), Neighborhood Commercial (NC), Limited Commercial (LC), And General Commercial (GC) Zoning Districts As A Conditional Use.

Mr. McGregor also presented this Ordinance Amendment to Council. He stated that the applicant, Shelia Copland is the owner of 1-On-1 Plus, LLC an organization that provides tutoring, childcare services, and owns the K-12 school known as Sheila E. Academy. Currently the organization is licensed to operate a tutoring service and childcare facility at 4107 Thomas Sumter Highway in Dalzell, however; the applicant wishes to house Sheila E. Academy at the property as well. The property is zoned General Commercial (GC). In the GC district in the County, elementary and secondary schools with SIC Code 821 are not a permitted use. The Standards Industrial Classification Manual defines SIC Code 821 as follows:

**821 ELEMENTARY AND SECONDARY SCHOOLS**

**8211 Elementary and Secondary Schools**

Elementary and secondary schools furnishing academic courses, ordinarily for kindergarten through grade 12. Included in this industry are parochial schools and military academies furnishing academic courses for kindergarten through grade 12, and secondary schools which furnish both academic and technical courses.
Mr. McGregor further stated that within Sumter County, elementary and secondary schools with SIC Code 821 are a Conditional Use in all residential zoning districts and the Agricultural Conservation (AC) zoning district. Elementary and secondary of schools are expressly excluded from all commercial and industrial districts, and have been since at least 1999. The Planning Director also stated that previous conventional wisdom appears to have kept schools out of commercial districts for mostly compatibility reasons, as a way to separate schools from uses such as drinking places, tattoo parlors, or other General Commercial Uses. State alcohol licensing laws do dictate separation requirements from churches, schools, and playgrounds. Based on state and local regulations, in a dense urban commercial environment the presence of an elementary or secondary school can impact the ability for a new retail or service use to obtain proper licensure for the sale of on-premise and off-premise consumption of alcohol.

In Sumter County, most of the commercial districts exist as strip zones along highway corridors and are bracketed and/or abutted by residential and agricultural zoning districts where elementary and secondary schools as well as churches are conditional uses, and residential development is permitted by right. Moreover, all commercial zoning districts conditionally permit religious and residential uses.

Also, Mr. McGregor stated that this established pattern of commercial zoning abutted by residential and agricultural zoning is such that the impact of a school on a potential alcohol licensee is no greater than the impact of a residential use or church regardless of whether a school is located within the commercial district. For these reasons, it makes sense to allow elementary and secondary schools within the commercial zoning districts as a conditional use just as they are permitted in the residential and agricultural conservation zoning districts within the County.

After all comments, Council took action on first reading.

**ACTION:** MOTION was made by Vice Chairman Byrd, seconded by Councilman Baker, and unanimously carried by Council to grant first reading to this proposed ordinance amendment.

(3) **OA-18-07 – Used Auto Parts Sales (County) – 18-902 – First Reading** – Request To Amend Article 3 Section K: Light Industrial-Warehouse District, Article 3 Section M: Multi-Use Industrial (MUI) District, And Exhibit 5: Permitted And Conditional Uses In The Commercial Industrial, Agricultural, And Conservation Districts Of The Sumter County Zoning & Development Standards Ordinance In Order To Remove The SIC Code 5015 – Used Motor Vehicle Parts Classification As Being A Permitted,
Conditional, Or Special Exception Use In All County Zoning Districts Except The Heavy Industrial (HI) District.

This proposed ordinance amendment was also presented by Mr. George McGregor. The purpose of this ordinance amendment is to specifically address used motor vehicle part uses classified under SIC Code 5015. Currently, uses classified under this SIC Code are permitted in both the Light-Industrial Warehouse (LI-W) and Heavy Industry (HI) zoning districts, and are a conditional use in the Multi-Use Industrial (MUI) zoning district.

The definition listed in the Standard Industrial Classification Manual for SIC Code 5015 – Used Motor Vehicle Parts is as follows:

*Establishments primarily engaged in the distribution at wholesale or retail of used motor vehicle parts. This industry includes establishments primarily engaged in dismantling motor vehicles for the purposes of selling parts.*

Uses under SIC Code 5015 are closely associated with SIC Code 5093 – Scrap and Waste Materials. The definition listed in the Standard Industrial Classification Manual for SIC Code 5093 is as follows:

*Establishments primarily engaged in assembling, breaking up, sorting, and wholesale distribution of scrap and waste materials. This industry includes auto wreckers engaged in dismantling automobiles for scrap. However, those engaged in dismantling cars for the purpose of selling secondhand parts are classified in Industry 5015.*

Mr. McGregor stated that currently, uses classified as SIC Code 5093 – Scrap and Waste Materials are only permitted in the HI district. In recent months, Staff has viewed property in the LI-W district classified under SIC Code 5015 – Used Motor Vehicle Parts. Staff has determined that the land use impacts for this classification, particularly uses engaged in dismantling automobiles for second hand parts, are generally the same as uses classified under SIC Code 5093 – Scrap and Waste Materials. These impacts include large areas of outdoor storage, dismantled vehicles, etc.

Uses classified under the SIC Code 5015 – Used Motor Vehicle Parts should be permitted in the same zoning districts as those classified as SIC Code 5093 - Scrap and Waste Materials. Land use impacts noted for SIC Code 5015 – Used Motor Vehicle Parts uses include large areas of cleared land being used to stock pile various inventories of used motor vehicles. It is noted that the used motor vehicle inventory is typically stored outdoors. See below example of a use currently classified under SIC Code 5015.
The Planning Director further stated that the intent of the LI-W district is to accommodate wholesaling, distribution, storage, processing and light manufacturing in an environment suited to such uses and operations while promoting land use compatibility both within and beyond the boundaries of such districts. Uses classified under SIC Code 5015 – Used Motor Vehicle Parts have been shown to have characteristics not in keeping with the intent of the LI-W district. These land use characteristics have a high potential for conflict with adjacent properties. As such, these uses do not promote land use compatibility within and beyond the boundaries of the LI-W District. They are not in keeping with the intent of this zoning district.

The intent of the MUI district is to accommodate a wide range of industrial uses while providing the multiple uses required to support those industries in an environmentally sound, pedestrian oriented neighborhood. Again, for the reasons stated above, uses classified under SIC Code 5015 – Used Motor Vehicle Parts have a potential for conflict with adjacent properties and do not meet the intent of the MUI District—to establish industrial uses with supportive retail and residential uses in an environmentally sound, pedestrian oriented neighborhood environment. As such, uses classified under SIC Code 5015 – Used Motor Vehicle Parts are not in keeping with the intent of this zoning district.

If approved, this request would permit uses classified under with SIC Code 5015 – Used Motor Vehicle Parts in the HI District only.

**Recommended Ordinance Amendments**

1. Amend Article 3: Section K – Light Industrial Warehouse District of the Sumter County Zoning & Development Standards Ordinance to include SIC Code 5015 – Used Motor Vehicle Parts as a listed exception to the uses permitted under SIC Code 50/51
2. Amend Article 3: Section M – Multi-Use Industrial (MUI) District of the Sumter County Zoning & Development Standards Ordinance to include SIC Code 5015 – Used Motor Vehicle Parts as a listed exception to the uses requiring conditional approval under SIC Code 50/51 in.

3. Amend Article 3: Exhibit 5 – Permitted and Conditional Uses in the Commercial, Industrial, Agricultural, and Conservation Districts of the Sumter County Zoning & Development Standards Ordinance to specifically reference SIC Code 5015 – Used Motor Vehicle Parts as only being permitted in in the HI District and not being permitted in any other county zoning districts.

After all comments, the Chairman called for a motion on this ordinance amendment as presented. Prior to voting, Councilman Baker thanked Mr. McGregor for bringing this matter before Council as requested.

**ACTION:** MOTION was made by Councilman Edens, seconded by Councilman Sumpter, and unanimously carried by Council to grant first reading to this proposed ordinance amendment. Councilman Baten voted in opposition. The motion carried.

(4) **OA-18-05 – Flood Damage Prevention Ordinance (County) – 18-897 – Third Reading --** Amend Relevant Portions Of The Sumter County Flood Damage Prevention Ordinance To Adopt The Wateree Watershed Maps And Flood Insurance Study (FIS) Revisions That Become Effective September 28, 2018; And, To Update The Ordinance To Make Corrections And Clarifications Noted In The 2017 South Carolina Department Of Natural Resources Community Assistance Visit (CAV) And The Community Rating System (CRS) Cycle Visit.
